PROFILE

Experienced developer, able to design and improve software applications. Proactive, with strong analytical skills, I share my technical expertise and deliver effective solutions. I also write technical documentation and user guides.

SKILLS

- Languages: C# (.NET Core, Unity), C++ (Unreal Engine), Python, TypeScript, Java, SQL, Shell.
- Engines: Unreal Engine 5 (C++ / Blueprints), Unity (C#).
- Frameworks: Angular, Node.js, ASP.NET Core, REST API, Entity Framework, Qt.
- Specialties: AI (YOLO/OpenCV), Console Porting (PS5/Xbox/Switch).
- Architecture: SOLID, Design Patterns (Observer, Factory, DI), Agile Methodologies.
- DevOps & Tools: Jenkins (CI/CD), Docker, Git, Perforce, CPU/GPU Profiling.
- Project Management: Technical specifications, Effort estimation, Software design.

Professional working proficiency

EXPERIENCE

Unreal Engine Developer, 04/2024 - 09/2026

Red Raketa - Antananarivo - Permanent

Systems, UI & Multiplatform Porting Expertise (PS5, Xbox, Switch)

Project: **Kalanoro** · release 09/24/2026

3D action-adventure platformer (Unreal Engine 5) inspired by Malagasy folklore, on PC (Steam), PS5, Xbox & Switch. Published by **New Tales & SEGA** · **ID@Xbox** Developer Acceleration Program.

- **Core Systems (C++)**: Designed key gameplay mechanics (quests, dialogues, save system) using the **Observer Pattern** for **modular, high-performance** code.
- **Tooling (C# / .NET)**: Developed a **localization automation** tool (.po / Excel workflows), including **data processing** and driving the **Unreal API**.
- **Fullstack UI**: Technical integration of interfaces (**UMG/Slate**) and critical **memory optimization** for the **Nintendo Switch** port.
- **DevOps & Porting**: Owned deployment on **PS5/Xbox** and set up **continuous integration (CI/CD)** with **Jenkins**.

Unity Developer, 09/2023 - 01/2025

Kainoo - Antananarivo - Fixed-term contract

Design of 3D business applications

• **Software & 3D Engineering (C# / .NET Core / Unity)**:

Snapping & Configuration Tool: Developed 3D object positioning algorithms and a structure (wall) configurator, improving user ergonomics.

CAD Data Processing: Built a CAD object slicing engine and processing of **massive point clouds**.

Interactive Visualization: Developed a high-fidelity application for vehicle configuration and visualization.

• **Fullstack & Cloud Architecture**:

Developed **REST APIs (.NET Core, Node.js)** integrated into **Angular** front ends, with **SQL** databases persisting complex configurations.

Lead Game Programmer, 01/2022 - 09/2023

W3D Madagascar - Antananarivo - Permanent

Mobile, VR and metaverse games (Unity, Unreal Engine 5)

- **Mobile games (Unity)**: Developed a **3D endless runner** shipped on **iOS** and **Android**.
- **VR, Metaverse & 3D: VR games**, a **metaverse game** on **Unreal Engine 5** and a **jewelry viewing** application.
- **Lead & Quality: Project management and tracking**, bug fixing and continuous improvements.

Junior Project Manager, 02/2021 - 05/2021

AGETIPA - Antananarivo - Fixed-term contract

Project management and Computer Vision solutions

- **Project Management: Design, technical specifications** and **effort estimation** for various IT projects.
- **Artificial Intelligence**: Developed a **road vehicle counting** application using **Python, OpenCV** and **YOLO**.
- **Architecture & Mobile**: Created **MySQL** databases and **ported** software solutions to **mobile (Java/Android)**.

EDUCATION

Master's Degree (M2) MBDS: Computer Science, 10/2020 - 09/2021
Université Côte d'Azur - Nice

Master's Degree (M1): Computer Science, 01/2020 - 09/2020
IT University
